# Introducing...
# Microsoft Connector

## Connect with the future on the UK home of digital careers

Are your students thinking about their next step, interested in digital but not sure where to start? Microsoft Connector is the place to be for all things digital careers. With **job opportunities**, **Digital Career Copilot**, **Careers quiz** and **learning modules**, there's all you need to take that next step – whatever that looks like!

## Discover the ways Connector is designed to help YOU with career support

### Share our Digital Careers Quiz
With our short quiz your students will find out what digital career path could be a fit for their personality type

### Use our Digital Careers Copilot
Here to help with any question you have about digital careers. See how our Copilot can be of assistance

### Search for an opportunity
Whether your students know exactly what they're looking for, or are seeking inspiration, it's time to start their search!

### Training and upskilling
Entering a new industry can be daunting, but we've got you covered with online learning modules to share with students

### Real world stories
Read our ambassador stories and find out what life is really like in the digital industry

### Find an employer or provider
We've got a host of employers and training providers waiting for your students. Find their perfect match
